PRIVATE SECRETARY MYSORE

THE PALACE,

MYSORE.

19th December 1916

My dear Sir,

His Highness has been thinking for sometime past about the question of Dentistry in connection with the Medical Department of the State. At present, Dental Surgery is practically non-existent in the Government hospitals. It is true that they possess dental instruments but those are only used in a rough and ready way for extraction purposes and no arrangements exist for the treatment of patients suffering from decayed teeth, Pyorrhoea and other dental diseases.

I had a talk on this subject some time last year with Dr. Rule, the American Dental Surgeon in Bangalore, and he was very keen on laying before you a scheme for introducing some form of dental Surgery at the Victoria Hospital for the benefit of the poorer classes. He was willing to give his own services both for treating patients and for training local Medical

Subordinates in the elements of dentistry. I went Home about that time and I do not know whether Dr. Rule actually laid his scheme before you.

His Highness would be very glad if you would kindly take this matter up and let him have a note on it. It would be an easy thing to send selected Graduates in Medicine to Europe or America to be trained in Dental Surgery and meanwhile it might be possible to afford some relief to dental cases at the Victoria Hospital and possibly also at Mysore with the co-operation of private Dental Surgeons like Dr. Rule who would be willing to give a part of their time at reasonable remuneration.

I am to say that the subject is, in His Highness's opinion, a very important one, as dental disease is an insidious thing which affects the constitution and general health of the sufferer and there is no doubt it is very prevalent in India, although

the casual observer may not hear much about it.

Yours sincerely,

Sir M. Visvesvaraya, K.C.I.E.,

Dewan of Mysore,

Bangalore.

Bangalore.

4544/Ex/16 20th December 1916

Dear Mr. Campbell,

'I am in receipt of your D.O. letter No. 180 of yesterday's date, regarding the institution of a department of dentistry in the principal Hospitals of the State.

It will be seen from the accompanying file that Dr. Rule laid a scheme before Government and that after consulting the Senior Surgeon, it was not found practicable to adopt it.

The question will, however, be examined again and a note furnished as desired by His Highness.

Yours sincerely,

R.H. Campbell Esqr., C.I.E.

Adm-39 2.1.17

The letter from the Private Secretary to His Highness suggests consideration of two points — viz,-

(1) training of graduates in Medicine in dentistry in Europe & America

&

(2) Immediate Starting of a Dentistry department in the Bangalore & Mysore Hospl with the co-operation of private Dental Surgeons at a reasonable remuneration.

The Sen[r] Surgeon does not touch upon the latter point but reference is however invited to his views on this subject in file 73 of 1915 - page 3 of office note para 4 — wherein he observes that the scheme would be expensive

The scheme proposed by Dr Rule seems to deserve a trial at least for one year. If he has to provide at his own cost the equipment required for the work in the Victoria Hospital, the salary claimed by Rs400 p.m does not seem too high. The scheme is temporary & its object is not only to treat the poor, but also to train medical men for district work. Though the latter have some training & knowledge in regard to extraction of teeth, there is considerable difference between them and expert dentists in handling cases of pyorrhoea, relieving pain &c.

An officer may also be deputed to a foreign country to undergo training in dentistry.

Dewan's Office 8/1

Extraordinary Member Dewan

Dewan's Office 8/1

On a previous occasion, in 1914, when Dr. S. N. S. Iyengar, a Mysorean, who had studied Dentistry in Europe applied for an appointment in the State Service, the Senior Surgeon was of - opinion that medical officers in general practice were quite competent to treat almost all cases of dental surgery such as extraction of loose teeth &c. which came to Hospitals and that there was no need for the appointment of a highly paid officer for the performance of this kind of work. (Vide Senior Surgeon's letter dated 30th June 1914 in

NOTE—Contn. sheet.

Serial No.

Med. file 214-13). He expressed the same opinion - when he was consulted in regard to Dr. Rule's - proposals (Vide his unofficial note dated 3-12-1915 in Med. file No.73-15). On a further reference now, he has stated only that the opening of a separate department of dental surgery would certainly be useful but nothing as regards the employment of Dr. Rule. The complaint is loud that in respect of medical attention our rural areas have been neglected, and when all the money we can spare is required for providing medical relief in such areas, it is a question whether any expenditure on the employment of more specialists would be justifiable. However the scheme may be - given a trial for about a year provided Dr. Rule could be induced to accept a remuneration of about R.250/- or so a month. It may be noted in this connection that Dr. Mylvaganam whose qualification is one of the highest was started on only Rs.400/- a month as a - whole time officer.

NOTE—Contn. sheet.

F İ N A L N O T E.

In November 1915 Dr. W.F. Rule, D.D.S, Practising Dentist in Bangalore offered his services for the establishment of a Dental Department in the Victoria Hospital, Bangalore, on the following terms:-

(1) He would attend the hospital for 3 days in the week between the hours 8 A.M. to 11 A.M. for the treatment of Pyorrhoea, extraction of scale teeth and relief of pain etc.

(2) He would train medical men in the treatment of dental diseases.

(3) The necessary equipment with the exception of drugs would be furnished by him at his cost during the first year.

(4) He should during the 1st year receive a salary of Rs.400 a month for his services without prejudice to his private practices.

2. The Senior Surgeon who was consulted in the matter was of opinion that medical graduates in general practice were quite competent to extract ~~and~~ scale - teeth and to treat gum troubles and relieve pain and what they required training in was the work of fitting artificial teeth or filling in decayed teeth, which was excluded from the scheme and that though the establishment of a dental Department in connection with the - Victoria Hospital would complete the organization of the Institution, the remuneration proposed viz., Rs.400 per mensem for working a couple of hours a day for - three days in the week was rather high.

3. In view of the fact that dental diseases -

affect to a considerable extent the constitution and the general health of the sufferers, a further reference was made to him. He admits that the opening of a separate department of dental surgery would certainly be useful and suggests the deputation of two officers for training in dentistry.

Page 7 of Office Notes

4. The Council are of opinion that as there is no one in the service at present who has had special - training in dentistry, the scheme proposed by Dr. Rule may be tried for one year provided he agrees to a - - remuneration of about Rs.250/- per mensem and that the Senior Surgeon may be requested to submit proposals for deputing to America a couple of officers for undergoing training in dentistry.

Page 11 ~~of~~ -do-

5. The financial Department has no objection to the proposals.

12 ~~of~~ -do-

6. If approved, further action will be taken in accordance with the Council resolution.

30.7.17.

Submitted to His Highness.

With reference to demi-official letter No.180 dated 19th December 1916 from the Private Secretary to His Highness the Maharaja, I submit herewith a Final Note by the Extraordinary Member of Council recommending that a scheme for the establishment of a department of Dentistry in the Victoria Hospital, Bangalore, proposed by Dr. Rule, American Dentist, might be given a trial for one year, provided he agreed to a remuneration of about Rs.250 per mensem instead of Rs.400 demanded by him.

2. On Dr. Rule being consulted in the matter, he says that for a remuneration of Rs.250 per mensem he can attend the Hospital only for two days in the week instead of three days as originally proposed. The First and Second Members of Council are agreeable to the acceptance of this modification.

Page 17 of Office Notes

3. The proposals made in the Final Note as slightly modified above, may be graciously approved.

Office of the Senior Surgeon with the
Government of Mysore,

D. O. No. 42

Dated Bangalore, 13th October 1917.

Dear Sir,

Your D.O. letter No.2120-Med.50-17, dated the 9th October 1917 requesting me to give my views on the draft Scheme for the opening of a separate department of dental surgery in the Victoria Hospital tentatively under Dr.W.F.Rule, D.D.S.

The treatment of dental affections such as scaly and painful teeth, pyorrhoea can be attended to by men with medical qualifications and does not require a Specialist. It is the other kind of dental work, viz., filling in carious teeth and making and fitting up artificial teeth that requires a specialist.

For the work of treating cases of pyorrhoea, extracting loose teeth, scaling of teeth and relieving pain, twice a week, the pay of Rs.250/- proposed seems to be rather high. If the Dental Surgeon is prepared to do filling and the fitting up of artificial teeth, also free to the poor, then he may be employed on the pay suggested.

In case the appointment is ordered by Government, the Dental Surgeon will have to be under the control of the Medical Officer in charge of the Victoria Hospital in the same way as the Ear, Nose and Throat Specialist is.

Yours sincerely,

C. S. Balasundaram Iyer Esq., B.A.,
